

# ISO20121 certified market for environmental, economic and social sustainability

## Use of materials and certifications

### GENERATOR ELEMENT

- Frame/ Box
- Lightweight

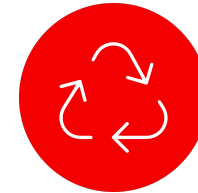

### STRUCTURE AND MODULAR JOINTS

- Two / three way joints
- Tubular structure of two / three dimensions

To guarantee:

- Lower production costs
- Easy transport
- Easy assembly / disassembly
- Easy storage

### RECYCLABLE / REUSABLE

All the elements that will make up the structure, including the graphic component, must comply with the rules that protect production, transport and any environmentally **sustainable** disposal or guarantee the possibility of **reuse**.
